Our approach

We believe in working in partnership with our clients, we do not believe in hidden charges, additional fees or a pricing structure that burdens our clients' business

1. Consultation

We meet to discuss your requirements and goals, we will understand your business, industry and your company's story within that context.

2. Research

We will research your industry, leveraging our proprietary tools and platforms to discover your major competitors, both online and real-world, whilst also gather information on trends in your business.

3. Proposal

Our proposal will document each and every service that we will carry out, outlining deliverables, KPIs and the analytics & reporting tools that will be used to empower your decision making with business data.

OUR FEE STRUCTURE

Our fee structure is dependent on the services we provide, our proposal lays out our recommended services and volume of work, but each item is enumerated and priced to allow our clients the freedom to adjust the volume of work or services to suit their budget.
